## SMELTERS DISCOVERED FIRE

A. L. Cook, barber, with Gene Descoe, Odell Clark, and Bud Merrill, cruised for smelts last Monday evening. The journey took them through North Bridgton, where they discovered a fire on the roof of the Academy dormitory. The blaze was the size of a football field. They entered the building and found the sleeping occupants and the fire truck from the Center soon arrived and put out the blaze. It was between ten and eleven o'clock when the fire was discovered.

Who says smelt parties in the night time are no good!

John A. Woodman, on a diet, reducing weight: "I ate 100 smelts today, Wednesday, for my dinner. Somebody sent 'em in. I suspect John True did it." Clarence Mayhew, of Rockland, Mass., has closed his labors in this office and gone to the big city, Lewiston. He lingered for us about six months. Very few smelt signs have been taken down. Capt. H. Sand's says a new one is soon to be put up to read: "Sheriff's Office, Insurance, Brokerage and Opportunities" Waiting Rooms.

Miss Ella Clark has German measles at her teaching at South Paris High School. Giles George moved Saturday into the Frank Witham house on Green Street. He plans to make some changes in the buildings before fall.

## Movement to Widen Streets

A preliminary survey of Main and Pine streets has been made with the view of widening them. The streets have been closed for convenience and safety. The buildings have been removed from the street to enlarge Market Square is being up, and a town meeting will be held to act on the matter.

The suggested line will either follow the corner of Main Street from the Richards corner of Pine Street, or it will be straight through those points. It is done may depend some what kind of buildings there are on the street. The plan is to run the street to twenty feet wide in front of Dr. Merrill's lot, and to the plan followed.

The street is proposed to run from the five station corner of Main Street, straighten and widen Pine Street, and will take off from ten to twenty feet of the Main Street frontage at the five station corner. The line will run through the Clifford filling station, and was damaged but not destroyed.

## Senior Play Developing Rapidly

"Daddy Longlegs," by Jean Webster, is the comedy selected for their annual play by the Paris High School Seniors, the evening of Friday, May 13th, at Association Hall, South Paris, is perhaps the most beloved of modern comedies in students' circles.

Cast of character, numbering nineteen, range from the bashful and downtrodden orphan, ruled over by the stern, dominating figure of the matron, to the modern type of adult and young people, portraying every station in life.

The play centers around one orphan, who accidentally discovers the trust of the orphanage, a desire to get away from the oppression of the matron, and expresses herself in an impassioned plea, which touches the general trustees. She gets her chance and the last three acts, with the help of the cast in evenly balanced parts, weaves a very pleasing plot. An unusual feature in Daddy Long Legs is the appearance of new faces in each act.

While this type of play is expensive from the standpoint of royalty, the faculty feel that the benefit to students is unlimited from a scholastic standpoint. This is Harold Anderson's first engagement as coach for Paris High and he is working hard to make this play the best ever.

## Walter Knightly Place Burned

Thirty-six head of cattle, three horses, and three or four pigs perished in the fire which destroyed the large set of buildings, on Wednesday morning, on Cobble Hill, owned by Walter Knightly, and formerly known as the Bird place. The loss is estimated at \$10,000.

The fire started apparently in the rear of the barn, about 4 a. m. The origin of the blaze is a mystery, because no one went into the barn with a light at any time Tuesday evening, so far as can be learned.

## Furniture was removed from two rooms in the house, but the rest was destroyed.

Then he went on to plead for the old fashioned home and the old-fashioned mother. Would you stigmatize this judge as a reactionary? Well, they are making a brave attempt to try out his ideas at Princeton. The above is clipped from the Rochester Courier. The car craze is ruining boys.

# PERIOD OF GREAT FIRE HAZARD CLOSE AT HAND

Forest Commissioner Violette Issues Warning to Maine Residents

Forest Commissioner Neil L. Violette, in a recent statement, said that with few exceptions, the most hazardous time during the fire season is just after the snow has melted from the ground and the warm spring sun has dried out the dead leaves lying on the ground. This condition continues until either the green leaves of under brush, ferns, etc., have come out or heavy rains have broken the dead leaves down and made them too wet to burn," continued Commissioner Violette.

"The period of great fire hazard is now close at hand, in fact in some portions of the State it has already arrived. Therefore particular care should be exercised in observing the fire laws and in restricting the use of fire in the woods and brush. Particular attention should be given to slash disposal and brush burning."

To get away from the legal wording of laws and departmental instructions prepared by legal talent a brief resume of these laws and instructions follows in the words of the lawgiver:

"In writing is required from the Forestry Department for the burning of brush or slash or for the burning of brushland with such land is adjacent to a road, except when the burning is covered with snow. These permits to burn may be procured from the chairman of selectmen in all organized towns. No permits whatever for brush burning shall be issued by selectmen during particularly dry spells. In most cases permits should specify whether a day or two when the burning is to be done and under the most favorable conditions should not cover a period of more than a week or ten days.

"The growth should be left uncut or the slash resulting from cutting must be disposed of within 50 feet of the right of way of a railroad or the center of a road, except on any road. Slash resulting from the construction and maintenance of a railroad, highway, power company, telephone or telegraph lines must be disposed of in such manner that inflammable material is not left upon the ground. Persons cutting forest growth adjacent to the Maine Forestry District must dispose of the slash within 50 feet of the line of cutting on the side or sides toward such woodlands. Failure to observe these provisions is punishable by a fine of \$50.

"Chairmen of selectmen should send at once to the forestry department names of persons who violate these laws."

"The observation of these laws by those burning brush, slash and blueberry lands and the enforcing of them by the selectmen will greatly reduce the fire damage in organized towns and will mean not only a saving of timber to the land owner and State, but a financial saving to the towns. It costs less to prevent fires than to fight them."

## BRIDGTON

Postmaster Howard W. Jones Dead—Corporation Meeting.

Postmaster Howard W. Jones, who received his appointment in October 1926, for his second term as Postmaster of Bridgton, died early Tuesday morning at his home on Portland street, after an illness of about six weeks. Masonic funeral services were held Thursday, at 2 P. M. at the Congregational Church, at which the pastor, Rev. William A. Rice, officiated, and interment was in the Forest Hill Cemetery. Mr. Jones was born in Fryburg in 1876, and came to Bridgton in 1924, where he entered the grocery business and was very prominent in local politics. He is survived by the widow, one son, Walter H. Too Much "Acid?"

Excess Uric Acid Gives Rise to Many Unpleasant Troubles.

Authorities agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands attest their kidney troubles. Thousands attest their kidney troubles. # 5000 miles in 4909 minutes!

## Studebaker Commander maintains mile-a-minute speed for 81 hours, 49 minutes

### 5 amazing records for speed and endurance established by Big Six

NEVER before has any automobile in America traversed 5,000 miles in less than 5,000 consecutive minutes.

A stock Studebaker did it—The Commander, a closed car fully equipped, including even spare tire.

In official tests under the sanction and observation of the American Automobile Association this stock Studebaker, identical with the car you can buy in any Studebaker sales room, not only established the amazing new record of 5,000 miles in 4909 minutes total elapsed time, but also set four other records.

2500 miles in 40 hours, 12 minutes, 54 seconds total elapsed time. An average speed of 62.16 miles per hour.

3102½ miles in 50 hours total elapsed time. An average of 62.05 miles per hour.

3500 miles in 56 hours, 47 minutes, 32½ seconds total elapsed time. An average speed of 61.62 miles per hour.

4,414 miles in 72 hours total elapsed time. An average speed of 61.3 miles per hour.

5,000 miles in 81 hours, 48 minutes, 22 seconds total elapsed time. An average speed of 61.12 miles per hour. No automobile or other vehicle in America has travelled so far so fast. No stock closed car has ever approached this record.

## QUESTIONS AND ANSWERS

On This Great Victory Over Time and Distance

When and where did the test start?

April 1st, 1927 at 5:15 P. M. at the Culver City, California mile-and-a-quarter track.

When were 5,000 measured miles completed?

April 3rd, 1927, at 3:03 A. M.—4909 minutes after the test started. Since this total elapsed time included time for stopping for fuel, relief of drivers, etc., it is obvious that the car attained a speed far greater than a mile a minute.

Who drove The Commander?

Harry Hartz, champion American race driver, started, finished and was driving at the time each record was established. He was relieved by Eddie Hearne, also one of America's great speed kings, Louis Wilson, another race driver and Ab Jenkins, Salt Lake City contractor who smashed all previous transcontinental records last June when he drove a Studebaker Sheriff from New York to San Francisco in 89 hours, 20 minutes.

Under what auspices were these amazing records of The Commander made?

The American Automobile Association, which had official observers on the spot throughout.

Was it a strictly stock car?

Before and immediately following the test, representatives of the American Automobile Association checked The Commander thoroughly and made affidavit that it was strictly a stock car in every respect. Studebaker factories are working to capacity building this identical model.

Was the car stripped?

No, it carried full equipment, including a spare tire. Fastest of all the

Lesson for April 24

PETER AT THE TRANSFIGURATION

LESSON TEXT—II Peter 1:16-18; Mark 9:2-13.

**GOLDEN TEXT**—And a voice came out of the clouds saying, "This is my beloved Son, hear ye him."  
**PRIMARY TOPIC**—Jesus Shows Peter His Glory.  
**JUNIOR TOPIC**—The Beauty and Glory of Christ.  
**INTERMEDIATE AND SENIOR TOPIC**—What Peter Saw and Heard in the Mount.  
**YOUNG PEOPLE AND ADULT TOPIC**—The Majesty and Glory of Christ.

I. The Meaning of the Transfiguration (II Peter 1:16-18).

These verses are an inspired interpretation by one who was present and knew all that transpired. The hope of the disciples was crushed. When Christ announced His death which was to take place on the cross, they were unable to see how victory could issue from death. Jesus took with Him, Peter, James and John, and they went into the mountain by themselves. Before going into the mountain Jesus declared that there were some standing in His presence who would not taste of death till they had seen the kingdom of God come with power.

Two men from the upper world were sent to converse with Jesus about His approaching death at Jerusalem—the very thing about which the disciples refused to talk. Then, too, God's own voice was heard in words of approval of Christ's course, directing them to hear the Master.

II. Jesus Christ Glorified on the Mountain (v. 2, 3).

He took the disciples "by themselves" and was "transfigured before them." This shows that the purpose of the transfiguration terminated upon the disciples and not on Christ. Christ's rebuke of Peter for his unwillingness to hear concerning His death apparently for the time estranged the disciples from Him. His appearance on the mountain typifies His visible appearance on the Mount of Olives (Zech. 14:4, 9).

III. Peter, James and John Represent Israel in the Flesh in Connection With the Kingdom (v. 2).

Christ is peculiarly the King of Israel. According to Ezekiel 37:21-27, the Israelites are to be the central people in the kingdom. This people shall be gathered from among the nations and united as one in that kingdom, in their own country.

IV. Moses and Elijah Appeared in Glory With Jesus (v. 4-13).

These men in the glorified state are typical of the saints in glory. Moses was once denied an entrance into Palestine appears now in glory representing the redeemed of the Lord who shall pass through death into the kingdom. Elijah represents the redeemed who shall pass into the kingdom through translation. Some shall be living upon the earth when the Lord shall come and they without dying shall be changed and thus pass into the kingdom (I Cor. 15:50-53; I Thess. 4:14-18).

1. Peter's proposal (vv. 5, 6). So definitely was the method of the kingdom unfolded before Peter that he proposed to erect tabernacles for Christ, Moses and Elijah. It is true that the unveiling of the majestic person of Christ and the panoramic display of the kingdom somewhat disconcerted Peter, yet he grasped its central meaning and proposed to celebrate the advent of the kingdom which had been prefigured in a tangible way.

2. The divine voice out of the cloud (vv. 7, 8). God declared Jesus to be His Beloved Son in whom He was well pleased. If one would know what is pleasing to God, let him study Jesus Christ who perfectly did His Father's will.

3. Jesus' charge (vv. 9-13). He charged them that they should tell no man concerning the things which they had seen until He had risen from the dead.

V. A Demonstration of the Purpose of the Establishment of the Kingdom (vv. 14-29).

When they descended from the mountain of transfiguration they witnessed a great multitude in a state of perplexity. The immediate cause of this state was the grievous condition of a young man possessed with a demon (v. 18). This young man's state is representative of the nations who are oppressed by the devil. Just as this young man was grievously oppressed, causing him to cast himself into the fire and into the waters, so the nations today in their great perplexity are doing the things which will result in their own destruction.
